

Questions received pertaining to Bid# 2026-01

Termite Bait Stations

- 1) Are there termite bait stations currently installed at any of the facilities?

Answer: Yes. At Lane and Green Sea Head Start Centers

- 2) What manufacturer/system is currently in place?

Answer: Sentricon

- 3) Will awarded contractor be permitted to service existing system if compatible or should pricing reflect removal and installation of new bait stations?

Answer: Existing bait stations can be utilized if compatible but new ones need to be installed at centers that do not currently have them.

Rodent Monitoring Equipment

- 1) Are there existing rodent bait stations or interior mechanical traps currently installed at any of the facilities?

Answer: There are no rodent bait stations or interior mechanical traps installed at our Head Start Centers. These centers have 3 & 4 yr. old children in them so we cannot have these devices within the reach of the children.

Fly Equipment

- 1) Are there any fly lights currently in any of the facilities?

Answer: No there are no fly lights in any of the facilities currently but we would be open to the possibility of adding them depending on the cost associated with installing and maintaining them.

Other questions

- 1) Who currently holds the contract?

Answer: Dodson Pest Control Services has been providing pest control service for many years at the centers. However we are now combining pest and wildlife control services into 1 contract and Dodson does not offer wildlife control services.

- 2) What was the awarded amount of the last bid for these services?

Answer: Pest control service were last bid out in 2007. But since we are combining pest and wildlife control services in this bid, I cannot answer this question.

- 3) What was the cost for pest control services for 2025?

Answer: Dodson Pest Control Services was paid a total of \$5,875.00 to provide monthly pest control services at all of the Head Start Centers for the entirety of 2025.
